About Startup Village
Startup Village is an inspiring location where 34 startups are currently based. We offer container-based office spaces for tech & science startups. We initially started out as a space for a specific target audience.

But we are increasingly becoming a community where students, startups, SME and corporates come together to get inspired. This is something we wish to further develop and advertise. To be able to do the aforementioned, Startup Village needs a new look. That's why for 2020 re-branding is on the agenda. This means we'll need a clear marketing strategy; we want to share more content and be more consistent in doing so. That's where you come in! Besides startup offices we also offer meeting spaces and a big event space. Weekly meetings, lectures, events and workshops are organized there. So there'll be something to report on daily by you as the content marketing intern!

Interested? Send your CV and motivation to: patricia@startupvillage.nl
What will you be doing?
- Create and conduct a social media strategy
- Write and create content for all our channels
- Coming up with activities/opportunities to grow and strengthen our community
- Ideas to keep our partners and sponsors involved in our activities
- Helping us develop a new website for Startup Village
